

WIRED PUMA MOUSE

Surprise your colleagues with striking backlighting all over the surface of the Puma mouse. This striking rodent is equipped with 7 programmable buttons. Two keys located on the side panel allow you to freely change the values of the defined parameters. The large main buttons are comfortable and their use does not cause a feeling of fatigue even after several hours of continuous "clicking".

Solid and compact design

The Puma mouse was designed in an original way. Exposed backlighting makes it look exceptionally impressive on a gamer's desk. In addition, it gives it a light weight. This mouse weighs only 65 grams! In addition, the player's hand does not sweat so much, thanks to the fact that air can flow freely under the hand. The sturdy construction makes it hold well in the hand, and the various components have been well-fitted together.

Braided cable as long as 180 cm!

The braided cable with a length of 180 cm and a gold-plated USB contact provides a perfect connection to your computer and a wide range of maneuverability.

Classic, proven design

Puma is a gaming mouse with a remarkable design that catches your attention from the very beginning. Precision of movement is ensured by a high-end optical sensor PMW 3360. The DPI resolution of this mouse reaches up to 12,000 DPI.

Striking TrueRGB backlighting

True RGB technology is responsible for the mouse's striking appearance on the desk. The mouse's perforated body with honeycomb-shaped cutouts makes the backlighting spread over the entire surface of the mouse, which makes it look amazing, especially in a dark room.

Programmable buttons

The mouse has 7 programmable buttons, which allow you to assign any settings to them. Located on the side panel, two buttons allow you to freely change the values of the defined parameters. Large main buttons are comfortable and their use does not cause a feeling of fatigue even after several hours of continuous "clicking". In addition, the Puma mouse is equipped with a clickable scroll wheel.

Technical data:

- optical sensor PMW 3360
- 7 buttons (2 side-buttons)
- resolution 800–12 000 DPI
- smooth and clickable scroll wheel
- True RGB colors palette
- 7 backlight effects
- power consumption 5V–120mA
- dimensions 125×68×42 mm
- weight 65g (±5g)
- cable length 1.8 m
- paracord cable
- gold plated USB connector
- silicon fastened
