

SERVAL WIRELESS MOUSE

Can a gaming mouse be wireless? Naturally! No lag, advanced optical sensor and excellent design, will make you instantly like it. The mouse is equipped with 6 programmable buttons. Two keys located on the side panel allow you to freely change the values of defined parameters. Above the clickable roller, a single button is placed for changing the DPI. Its position prevents accidental pressing while playing.

Classic, proven design

Serval CA-1048 is a wireless gaming mouse with a classic design that will appeal to any gamer. The precision of movement is ensured by the PMW 3325 optical sensor, and the DPI resolution of this mouse reaches up to 10,000 DPI.

600 mAh battery and USB-C cable

The battery capacity of this mouse model is 600 mAh, which ensures really long gameplay without the need to charge the device frequently. The charging process itself is done via a 150 cm long USB-C cable. You can also use the mouse when it is connected to a computer with the cable.

Robust and compact design

The Serval mouse is designed to withstand even the most dynamic games full of excitement. The compact, sturdy design makes it feel good in the hand, and the individual components have been well-fitted together.

Striking TrueRGB backlighting

True RGB technology is responsible for the mouse's striking appearance on the desk. The gentle illumination of the edges and logotype makes the mouse look above average, while not distracting the player.

Programmable buttons

The mouse has 6 programmable buttons that allow you to assign any settings to them. Located on the side panel, two buttons allow you to freely change the values of the defined parameters. The large main buttons are comfortable and their use does not cause a feeling of fatigue even after several hours of continuous "clicking".

Technical data:

- optical sensor PMW 3325
- 6 buttons (2 side-buttons)
- resolution 800–10 000 DPI
- lithium battery 600 mAh
- USB charging port
- smooth and clickable scroll wheel
- True RGB colors palette
- 10 backlight effects
- power consumption 5 V–100 mA
- dimensions 124×68×43 mm
- weight 130 g (±5 g)
- USB-A to USB-C charging cable
- cable length 1.5 m
- PVC cable
- Velcro fastened
