

GAMING MOUSE KORAT

Korat mouse is equipped with 6 programmable buttons. Two keys located on the side panel allow you to freely change the values of the defined parameters. Above the clickable roller there is a button for changing the DPI. The large main buttons are comfortable and their use does not cause a feeling of fatigue even after several hours of continuous "clicking". Striking backlighting is provided by TrueRGB technology.

Classic, proven design

Korat CA-1063 is a gaming mouse with a classic design that will appeal to any gamer. The precision of movement is provided by the Sunplus 1991C optical sensor. The DPI resolution of this mouse reaches up to 8,000 DPI.

Robust and compact design

Korat mouse is designed to withstand even the most dynamic games full of excitement. The compact, sturdy design makes it hold well in the hand, and the individual components have been well-fitted together.

175cm braided cable

The 175cm braided cable with gold-plated USB contact provides a perfect connection to your computer and a wide range of maneuverability.

Striking TrueRGB backlighting

True RGB technology is responsible for the mouse's striking appearance on the desk. The gentle illumination of the edges and logotype makes the mouse look above average, while not distracting the player.

Programmable buttons

The mouse has 6 programmable buttons that allow you to assign any settings to them. Located on the side panel, two buttons allow you to freely change the values of the defined parameters. The large main buttons are comfortable and their use does not cause a feeling of fatigue even after several hours of continuous "clicking". In addition, the Korat mouse is equipped with a clickable scroll wheel.
