

LIZARD MECHANICAL KEYBOARD

Full-size extremely durable gaming keyboard distinguished by vivid RGB backlighting. With 104 buttons and 11 multimedia keys based on Outemu Red switches, it will meet the capabilities of most gamers.

Solidity and durability of workmanship

Minimalism of the structure, yet solidity and durability of workmanship. These are the main features of the CA Lizard keyboard. The body of the keyboard is maintained in matte black. Thanks to the use of high-quality materials, the keyboard has a rigid structure that does not bend, even during the most exciting games.

Vibrant backlighting that looks insane

The distinct and vivid key backlighting of the Lizard keyboard makes it look extremely impressive on any desk. The device has as many as 20 different key backlighting effects that will surprise you with their variety. In addition, it has 5 backlighting modes designed for the most popular games.

Program the backlighting to your liking

The keyboard allows you to program and store any 5 sets of keys. To do this, we first choose under which key our set will be visible. To do this, we press FN + 6 / 7 / 8 / 9 / 0. Then we start the programming mode by pressing FN + End and press the selected keys. We finish the whole process by pressing FN + End again.

Practical solutions

Lizard keyboard has a function of locking the Windows key, which prevents accidental exit from the game to the desktop or launching system shortcuts such as Win + L. Braided cable with a length of 180 cm provides comfort of connection. Rubber pads provide stability and prevent uncontrolled sliding of the device on the desk.

Full Anti-Ghosting

The keyboard features full Anti-Ghosting. Practical tests show how useful this feature is in everyday use. Ghosting is the problem of some keyboard keys not working when several keys are pressed simultaneously. Pressed keys that do not appear on the computer or seem to disappear are said to have been 'ghosted'. Our keyboard is equipped with such technological solutions that prevent such problems from occurring.
